# Basis of Preparation - CSS

The financial statements of the HPPGCO Group are prepared in compliance with United Kingdom Accounting Standard FRS 102 and the Companies Act 2006. The financial information in the CSS is presented in accordance with these same principles.

Additional information relating to the 2024 CSS figures presented:

## **1.1 Revenue from sale of electricity and gas**

The Supply business sells electricity and gas to non-domestic customers in the UK.

## **1.2 Other Revenue**

The Supply business did not have any other sources of revenue for 2024.

## **2.1 Direct Fuel Costs**

The Supply business purchases wholesale electricity and gas internally from our Power and Gas Trading division, and purchases electricity from our separate Power Generation entities. Purchases are entered into on a back-to-back basis to fulfil our Customer sales contracts.

## **2.2 Transportation Costs**

These include costs incurred in delivering energy to customers including BSUoS (Balancing Services Use of System), Capacity charges and other transportation costs.

## **2.3 Environmental and Social Obligation Costs**

These include ROCs (Renewable Obligation Certificates) and REGOs (Renewable Energy Guarantees of Origin), AAHEDC (Assistance for Areas with High Electricity Distribution), Climate Change Levys, FIT (Feed in Tariff) and CfD (Contracts for Difference).

## **2.4 Other Direct Costs**

These include Brokerages and other costs directly attributable to sales.

# Basis of Preparation – CSS (continued)

## **2.5 Indirect Costs**

These include Metering Costs, Salary and other overhead costs allocated to the Supply business in 2024.

## **3.1 Depreciation and Amortisation**

There are no tangible or intangible assets attributed to the Supply business.

## **4 Volume**

Volumes reflect supplier volumes at the retail meter point (i.e. net of losses).

## **5 WACO E/G**

WACO E/G means the Direct fuel costs line divided by the Volume line, shown as £/MWh for electricity or p/th for gas.

## **6 Meter points**

Meter points reflect the average number of electricity and gas meter points during the reporting year.

## Hedging Strategy

Hartree owns flexible power generation assets alongside its Supply business providing a direct hedge. Supply business holds the volume risk, which is managed through HPPGCO (trading entity). While market-facing trade execution and risk management reside in HPPGCO, these are passed through to Supply business as the power license holder. All our customers are on fixed price tariffs that include volume tolerances. The Supply business does not enter into any speculative trading and seeks to minimise price exposure across the portfolio.
